UltraCozy power recliners are not your average recliner with basic features. They are an exclusive line of power recliners with patented positioning that provides a feeling of weightlessness. The patented movement of the seat and back combined with a patented tilting motion offers ergonomic positioning options and out-of-this-world comfort not available or achievable by any other recliner on the market.

Engineered with comfort and wellness benefits in mind, UltraCozy power recliners provide numerous positioning options that allow your mind and body to revitalize and refresh. Our positioning can help:

- Encourage circulation
- Relieve muscle tension
- Allow your muscles to rejuvenate and repair
- Take unneeded pressure off your joints
- Promote restful sleep

In addition to comfort and wellness benefits, UltraCozy offers in-stock and custom order options to match any décor.

What is the ZG+ position?

The "+" stands for our patented tilting motion and movement of the seat box, elevating your ZG experience in a way others can't. The weightless experience is one-of-a-kind!

Select UltraCozy recliners can now be custom ordered with any fabrics we offer!

Rejuvenate Position

Comfort Zone™

by UltraCozy

The Comfort Zone by UltraCozy offers a stress-free reclining experience by providing patented, adjustable and supportive positioning zones that can increase the body's wellness and optimize feeling of comfort.

Zone 1 - The four-way motion of the seat helps provide relief to muscle and joint pain by placing your lower body in a supported ergonomic position.

Zone 2 - The independent movement of the backrest allows stress and strain to be released from your upper body by offering adjustable support for your back and shoulders. Zones 1 & 2 combined create patented positioning you won't find with any other recliner on the market.

Zone 3 - The upward motion of the adjustable headrest allows for tension to be released from your neck and shoulders by supporting your head placement while encouraging the natural shape of your spine.

Zone 4 - The custom and firm support of the adjustable lumbar can take pressure off your spine while giving your back muscles a chance to rest and rejuvenate.

Zone 5 - The patented tilting motion provides a feeling of weightlessness and offers positioning options not available with other recliners. Encourage circulation by relaxing with your legs elevated or promote the release of muscle tension and joint pain in a neutral position.

NOTE: Zones 2-5 not available on the UC341
